

The Expert Solution to Your Pest Problems

At Shotgun Pest Control, we understand that pests can be more than just a nuisance. They can pose health risks and cause significant damage to your property. That's why we're committed to providing effective and reliable pest control solutions.

We also provide certificates of property compliance and offer cleaning products for daily maintenance at competitive prices. Trust us to deliver a clean, refreshing, and pest-free environment for your home or business.

Your safety is our top priority. We ensure that all our pest control methods are safe for humans and pets.

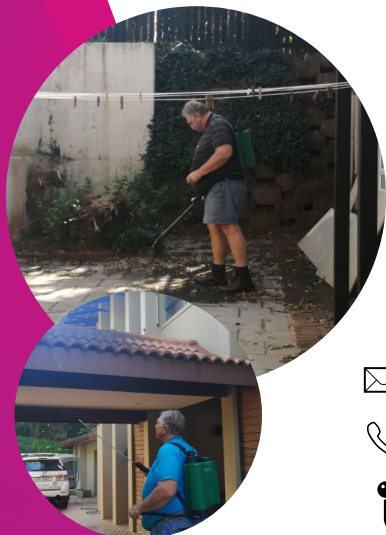

We identify potential pest problems before they turn into infestations, saving you time, money, and stress. Our preventive services include comprehensive inspections to detect signs of pests and suggest the most effective treatments.

For the hospitality industry and food sectors, we provide food-safe degreasers and disinfectants within compliance to HACCP. This helps in preventing cross-contamination, ensuring that your food preparation areas remain safe and hygienic.

Different pests require different approaches. We provide tailored solutions that effectively handle various pests, from cockroaches and rats to lice.

Shotgun Pest Control offers expert pest control solutions tailored to your needs. With our focus on prevention, tailored solutions, flexibility, and commitment to safety, we are your trusted partner in maintaining a pest-free environment.
